1.Opis funkcionalnosti

Aplikacija je zaštićena autentifikacijom tako da posetilac bez logovanja može pristupiti pristupiti samo početnoj strani, tj. sekcijama autor, kontakt, projekti, komentari i sekciji za logovanje i registraciju.

Registracija korisnika je obezbeđena proverom putem regularnih izraza, samim tim mora uneti validne podatke (mail, korisničko ime, lozinku).

Nakon logovanja korisnik može pristupiti formama za postavljanje komentara u sekciji komentari, kao i anketi i formi za kontaktiranje administratora u sekciji kontakt.

Komentarisanje u sekciji se vrši pomoću ajax-a tako da će korisnik pri unosu moći da vidi svoj komentar. Komentari su sortirani po vremenu. Uz svaki komentar stoji njegov autor i vreme postavljanja komentara. Takođe lajk/dislaik anketa na sekciji kontakt, se vrsi preko ajax-a.

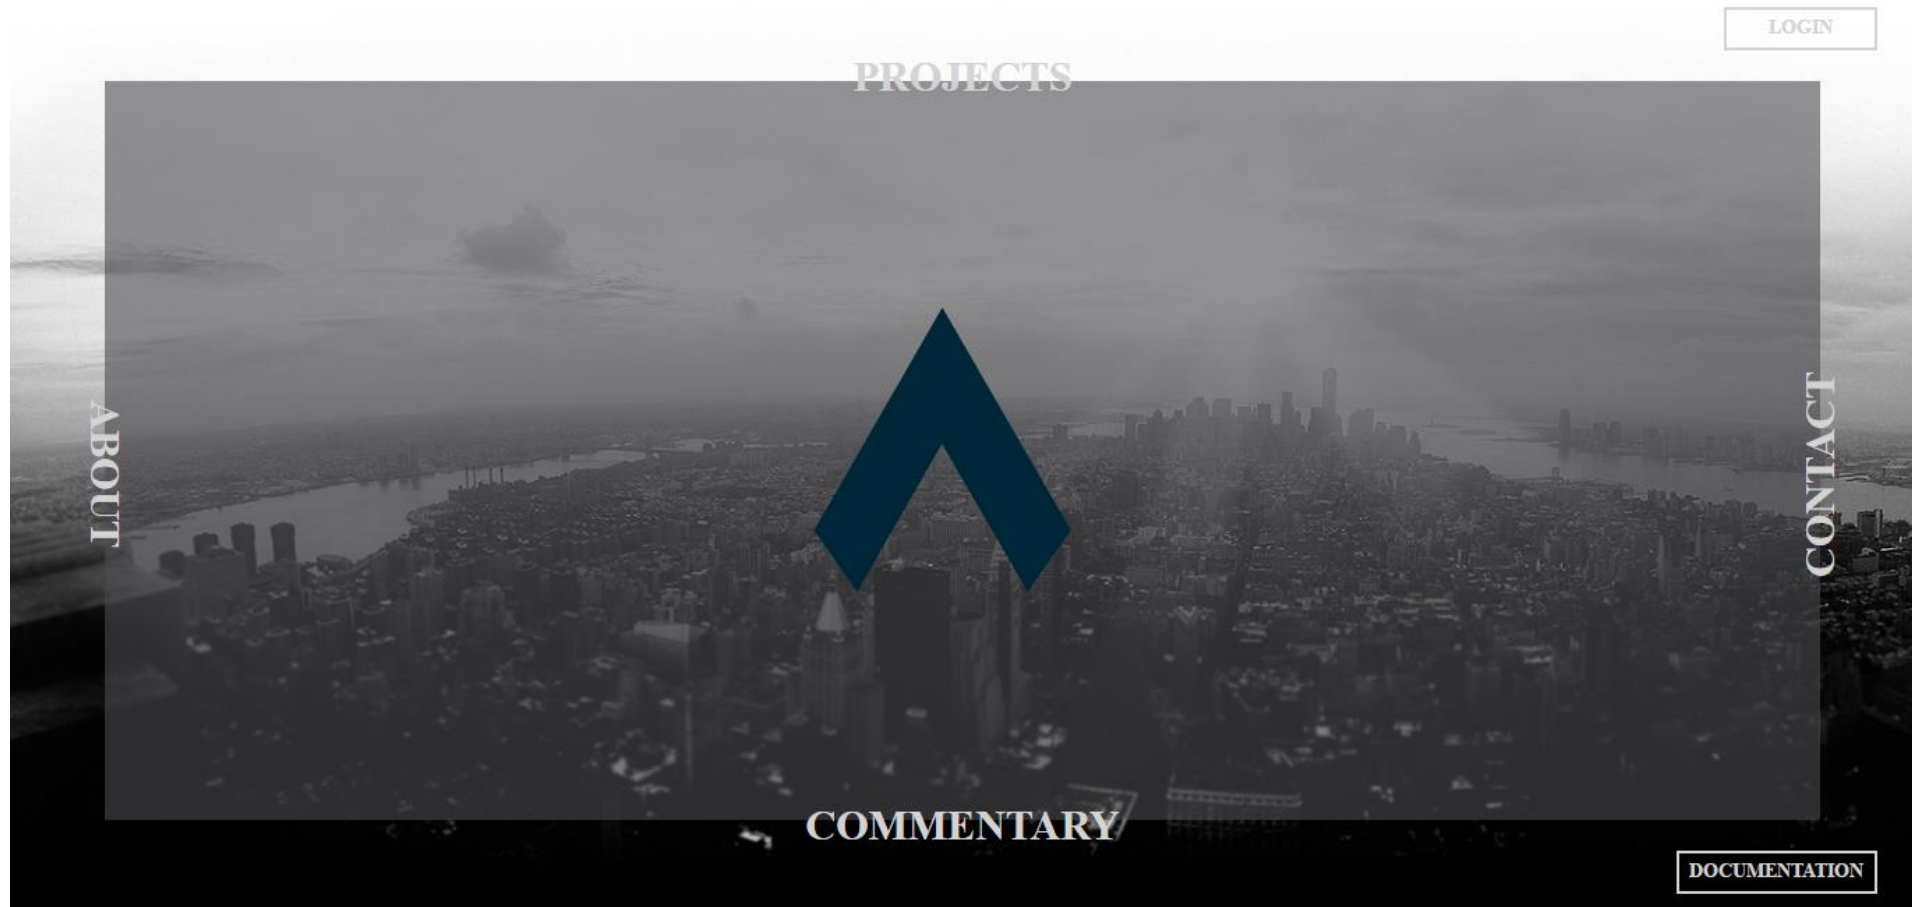

Administratorski panel ima mogućnost da vidi sve registrovane korisnike, da menja korisničke podatke, briše korisnike, čita i briše kontakt forme, menja sadržaj galerije, briše slike iz galerije, dodaje slike ili pomoću unosa linka ili fajla, menja sadržaj sekcije about, menja sadržaj sekcije projects i čita, briše i dodaje komentare.

2.1.4 About section

2.1.5 Login/Register section

The image shows a dark-themed web interface with a cityscape background. A central modal is open, containing a login/register section. The modal has two tabs: "Login" and "Register", with "Register" being the active tab. Below the tabs are three input fields: "Username", "Password", and a "LOGIN" button. The background page has several navigation links: "ABOUT" on the left, "CONTACT" on the right, "PROJECTS" at the top center, "COMMENTARY" at the bottom center, "LOGIN" in the top right corner, and "DOCUMENTATION" in the bottom right corner.
